

**SPECTRUM  
LASER INC.**

**AutoNomus Series**

An Exclusive  
solution for  
**SMART FACTORY**

## #ABOUT US

The industry demand are increasing day by day faster, more accurate, more customized and reacting as high quality product requirements. no matter what material and surfaces. The **SPECTRUM** laser are perfect solution for your challenges. we have skilled technician brilliance knowledge for most sector. Our Customized robots and automation products are versatile variety of your requirements. find perfect partner for your needs here.

Design intelligent, flexible and efficient factory automation applications that save energy and extend system life. From industrial communications to robotic meeting functional safety standards, our strong portfolio of embedded and analog products, system expertise and technical resources support you in engineering smart factory applications.

## #WHAT WE DO

For decades, we have operated with a passion to create a better world by making customized laser machine solution, Fully automation of individual product, Smart production line and many more . We were pioneers in the laser customization and automation for specific client need. Each generation of innovation builds upon the last to make technology smaller, more efficient, more reliable and more affordable making it possible to make smart factory everywhere. We think of this as engineering Process.

Our passion to create a better world by making durable and affordable system is alive today as we help our customers develop new applications, particularly in the industrial application, food industry, cosmetic industry, Pharmaceutical industry, Plastic industry and automotive markets.

## #OUR VALUE

### **Trustworthy**

We start by being trustworthy. We act with integrity and do the right thing, every time. We operate in a socially responsible way. Being trustworthy is foundational for us as a company and as individuals.

### **Inclusive**

We thrive by being inclusive. We create an environment that unlocks everyone's potential, where we treat one another with respect, value our differences, and are encouraged to put our thoughts and ideas on the table.

### **Innovative**

We win by being innovative. We imagine new technologies that produce compelling products, open new markets and improve our competitiveness. We are curious, persistent and determined to overcome barriers.

### **Competitive**

We embrace a competitive world. We hate to lose, so we continuously challenge ourselves to perform at our best. We invest in the best opportunities for sustainable growth. To stay competitive, we attract, develop and retain the best people.

### **Results-oriented**

We are results-oriented and hold ourselves accountable. Our customers have choices, and we act with urgency and deliver on our commitments. We improve our performance every day to help our customers succeed.

# ROBOT

Low Maintenance  
Easy Operation

Increase Quality  
and Product Value

Comitete Advantage  
and Gain market share

Individual Customize  
Option

Higher Output Capacity  
Time Saving Procut

# #AUTOMATION

Industrial automation is the use of control systems, such as computers or robots, and information technologies for handling different processes and machineries in an industry to replace a human being. It is the second step beyond mechanization in the scope of industrialization.

Due to the rapid advances in technology, all industrial processing systems, factories, machinery, test facilities, etc. turned from mechanization to automation. A mechanization system needs human intervention to operate the manual operated machinery. As new and efficient control technologies evolved, computerized automation control is being driven by the need for high accuracy, quality, precision and performance of industrial processes.

Automation is a step beyond the mechanization which makes use of high control capability devices for efficient manufacturing or production processes.

2 Years Warranty  
(Extended Structure)

High End Quality  
Product

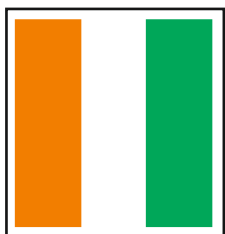

Tailor made SPM  
Software Solution

ORBIT Series  
Your Performance Partner

Customized Fabrication  
meets your requirements

24X7 Service  
online Support

# Complete **L A S E R** Solutions under one roof
